

Create a Sisterhood of Support network with your community

How it works:

When the GREEN side is showing, everything is good! The wearer does not need support but is wearing to show others that they are part of the support network.

When the WHITE side is showing, extra support is needed. The wearer is wanting additional support for their wellbeing. This can be as simple as asking "How's it going" or sitting next to them. The important part is to ask the wearer how you can support them!
